

# Mst. Afia Nasrin

## Junior Frontend Developer

Dhaka, Bangladesh.  
(+880)1674931378

[Email](#) / [LinkedIn](#) / [GitHub](#)

## SUMMARY

Web developer with the ability to learn and collaborate in rapidly changing environments and compositions. To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

## PROJECTS

**Crockeries Gallery** [Live Link](#) / [GitHub-\(Client Side\)](#) / [\(Server Side\)](#)

**Crockeries Gallery is an old Crockeries eCommerce Website,**

- It is a Full Stack Project for the front end. I have used React JS for the front end & used Express JS for the back end. I have used MongoDB for the database. Firebase has been used for authentication.
- This is a second-hand Crockeries selling and buying website. Here, the seller can add a product and delete this product. And he/she can add this product in the advertising section, which is shown on the home page. Admin can verify every seller, and delete buyer, seller, and reported items.
- Important key feature is that every buyer can report to the admin any product.

**Get Pretty flower & cake** [Live Link](#) / [GitHub-\(Client Side\)](#) / [\(Server Side\)](#)

**Get Pretty flower & cake** is an online delivery eCommerce Website,

- It is a Full Stack Project for the front end. I have used React JS for the front end & used Express JS for the back end. I have used MongoDB for the database. Firebase has been used for authentication.
- The main feature is that every user can give feedback/review and delete his review.
- Another key feature is users can add services.

**Learning Web Development** [Live Link](#) / [GitHub-\(Client Side\)](#) / [\(Server Side\)](#)

**Learning Web Development** is an online course Website,

- It is a Full Stack Project for front end .I have used React JS for the frontend & used Express JS for the back end. I have used MongoDB for the database. Firebase has been used for authentication.
- Built responsive and dynamic web pages to enable users to easily navigate the site.
- Every user can see all course details without login . And download the course details page in pdf format.
